Quick Reference Card

SECTION 01

Getting Started & Login

How to access LabHive and navigate the platform

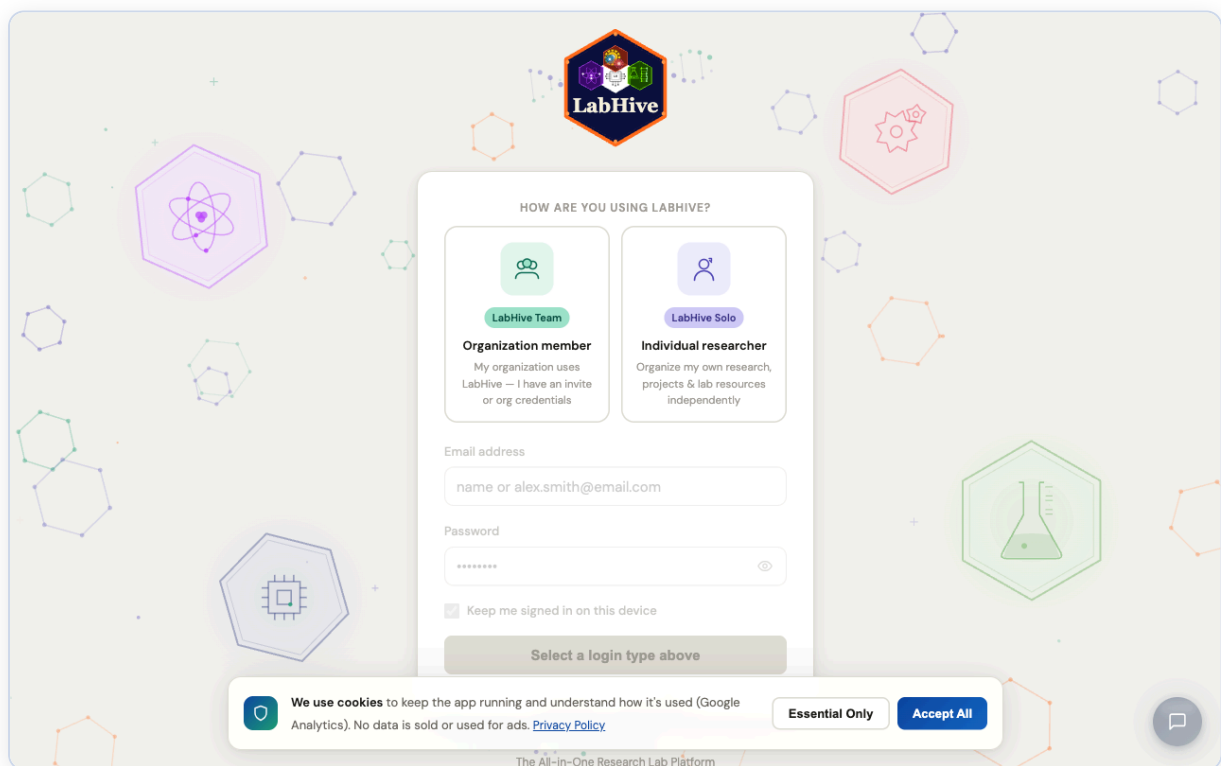

Accessing LabHive

LabHive is a web-based platform — no installation needed. Open any modern browser and go to:

URL: <https://labhive.app>

Logging In

- 1 Click **Team Login** on the login page.
- 2 Enter your **email address** and **password** provided by your administrator.
- 3 If logging in for the first time, you will be prompted to set a new password before continuing.
- 4 Check **"Keep me signed in on this device"** if using a trusted computer.

HOW ARE YOU USING LABHIVE?

LabHive Team
Organization member
My organization uses LabHive — I have an invite or org credentials

LabHive Solo
Individual researcher
Organize my own research, projects & lab resources independently

Email address
name or alex.smith@email.com

Password

☐ Keep me signed in on this device

Select a login type above

We use cookies to keep the app running and understand how it's used (Google Analytics). No data is sold or used for ads. [Privacy Policy](#)

Essential Only Accept All

The All-in-One Research Lab Platform

Screenshot: labhive.app login screen

Tip: If you forget your password, contact your org admin to reset it.

The Dashboard

After login you land on the **Dashboard** — a grid of module cards. Each card opens a feature of the platform.

Lab Management
Add/manage lab users and lab managers; handle account approvals.

Training Records
Track safety, documents, vehicle, equipment, alarm, locker & exam training per user.

Equipment & Maintenance
Maintain the equipment inventory and log maintenance history.

Equipment SOP
Manage SOPs, training videos, standards, and online exams per equipment.

Reserve Equipment
Approve, deny, or manage equipment booking requests from lab users.

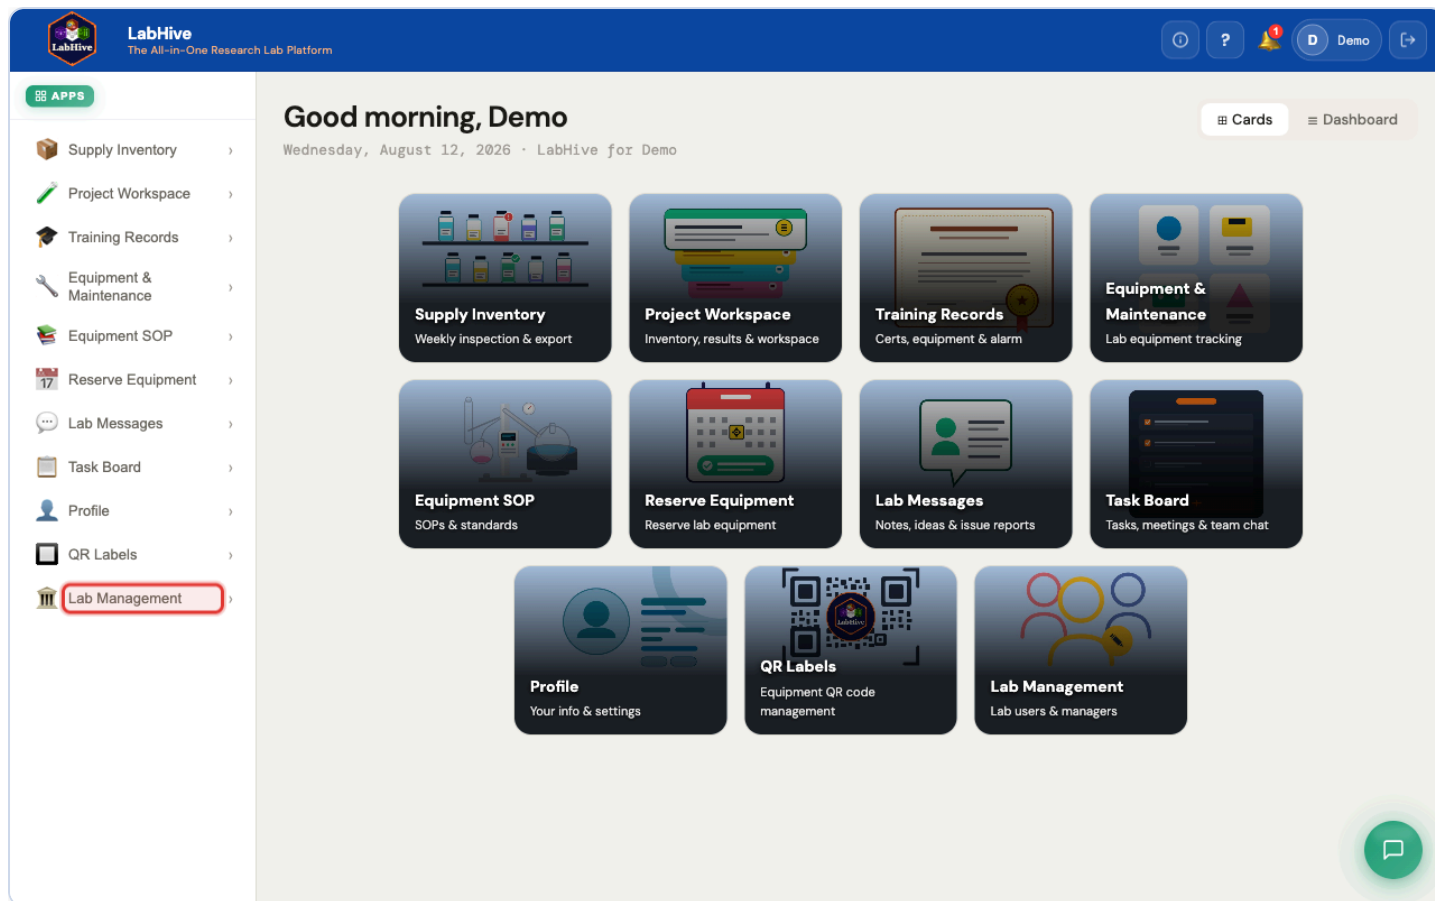

Task Board
Create tasks, schedule meetings, set deadlines, and track team work.

Supply Inventory
Run room inspections, track supply counts, and export reports.

Lab Messages
Internal chat between lab managers, admin, and lab users.

Screenshot: dashboard after login

Sidebar Navigation

The **left sidebar** is always visible and has two parts:

- **Top section** — sub-tabs for the current screen (change depending on which module is open).
- **Apps section** (collapsible) — lists all modules for quick switching between screens.
- **Home button** at the bottom — always returns you to the Dashboard.

Tip: Click the collapse arrow to shrink the sidebar to icon-only mode and gain extra screen space.

Notification Bell 🛎

The bell icon in the top-right header shows in-app notifications. A red badge indicates unread items. Clicking any notification takes you directly to the relevant screen. Supported notifications: booking approvals, training certificate updates, task assignments, new messages, and meeting invites.

SECTION 02

Lab Management

Managing lab users (students) and lab managers; handling approvals

Click  **Lab Management** on the dashboard or sidebar. Three sub-tabs are available.

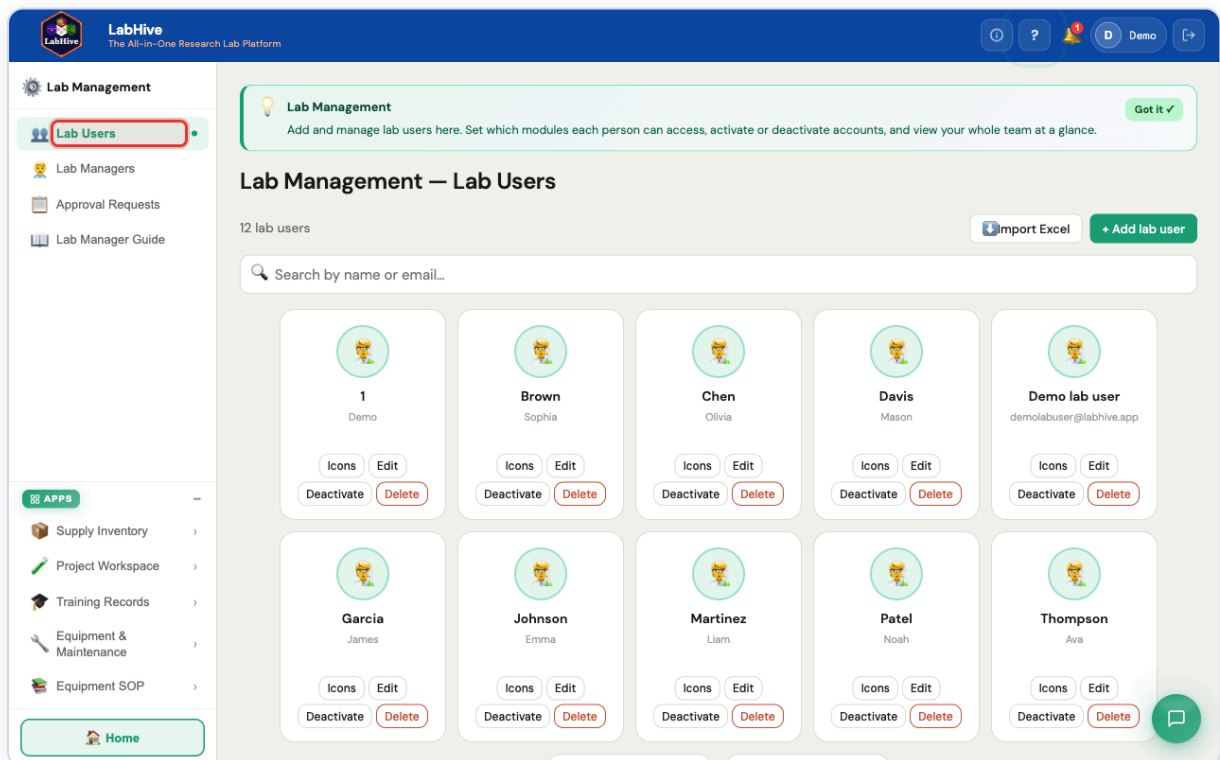

Lab Users Tab

Dashboard → Lab Management → Lab Users

Shows all registered **lab users (students)** in your organization.

What you can do

- **Search** by name or email using the search bar at the top.
- **View** a user's profile details by clicking their row.
- **Edit** — update name, email, or status.
- **Activate / Deactivate** — deactivated users cannot log in.
- **Delete** — permanently removes the account (use with caution).
- **Add a new lab user** — click , fill in name, email, and a temporary password. The user must change their password on first login.

Screenshot: Lab Management → Lab Users

Note: You cannot edit or deactivate org admin accounts — only the org admin can do that.

Lab Managers Tab

Dashboard → Lab Management → Lab Managers

Shows all **lab managers (staff)** in your organization. Add new lab managers with **+ Add Staff** and fill in their details. Edit or deactivate existing manager accounts from this list.

Approval Requests Tab

Dashboard → Lab Management → Approval Requests

When lab users complete training steps that require approval, or submit requests (such as locker assignments), they appear here for your review.

- 1 Review the pending request — user name, request type, and submission date.
- 2 Click **Approve** to grant access, or **Deny** with a reason.
- 3 The lab user receives an in-app notification and email confirmation of your decision.

Screenshot: Lab Management → Approval Requests

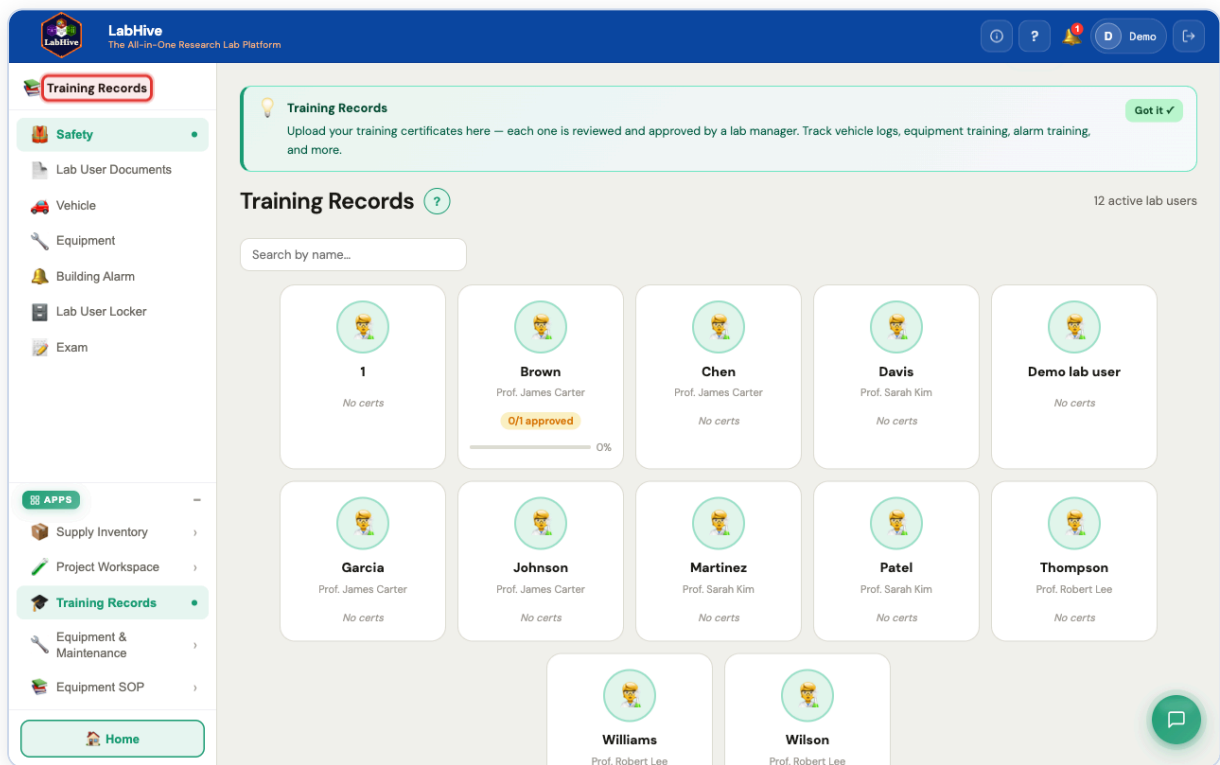

SECTION 03

🎓 Training Records

Track and approve all training requirements for each lab user

Training Records is the central hub for all user training requirements. Click on a **lab user's photo card** to open that user's full record, then switch between training categories using the inner tabs.

User-Centric View: The card grid shows all lab users. Status dots appear on each inner tab — ✓ complete, ⌚ pending, — none.

Screenshot: Training Records main view

🛡️ Safety Tab

Training Records → (select user) → Safety

Tracks the mandatory **Lab Safety** steps every new user must complete before accessing the lab. Steps are sequential — each must be approved before the next unlocks.

- View which steps are complete, pending, or not started.
- Click **Approve** on a submitted step to mark it done.
- Steps that require manager approval show a pending ⌚ indicator.

Your info & settings

Lab User Documents Tab

Training Records → (select user) → Lab User Documents

Lab users upload training certificates here. You review and approve each one.

Approving a Certificate

- 1 Click the lab user's card to open their record.
- 2 Switch to the **Lab User Documents** inner tab.
- 3 Each uploaded certificate shows the file name, upload date, and status chip (Pending / Approved).
- 4 Click **Approve** on a pending certificate to mark it valid.
- 5 The user immediately sees the updated status and receives an email notification.

Screenshot: Training Records → user → Lab User Documents

Tip: Use the **"All Users"** toggle at the top right to switch to a full list of all certificates across all users — useful for bulk review.

Vehicle Training Tab

Training Records → (select user) → Vehicle

Records golf cart / vehicle training certification for users who need to operate on-campus vehicles.

- View certification status, trainer name, confirmation statement, and date.
- Add or edit a vehicle training record for the selected user.

Equipment Training Tab

Training Records → (select user) → Equipment

Shows which equipment exams the user has passed via the Equipment SOP Hub. Automatically updated when a user passes an exam — no manual entry needed.

 Building Alarm Tab

Training Records → (select user) → Building Alarm

Records whether a user has been trained on the building alarm system — required for after-hours lab access. Add a training date record to mark the user as alarm-certified.

 Lab User Locker Tab

Training Records → (select user) → Lab User Locker

Manage locker assignments. Assign or remove a locker number for the selected user.

 Exam Tab

Training Records → (select user) → Exam

Shows overall exam scores across all equipment SOP exams taken by the user — score, pass/fail status, and date. Use this to verify a user has passed all required exams before granting booking access.

SECTION 04

Equipment & Maintenance

Manage the lab equipment inventory and maintenance history

Dashboard → Equipment & Maintenance

Three sub-tabs: **List of Equipment**, **Maintenance Records**, **Settings**.

List of Equipment Tab

Equipment & Maintenance → List of Equipment

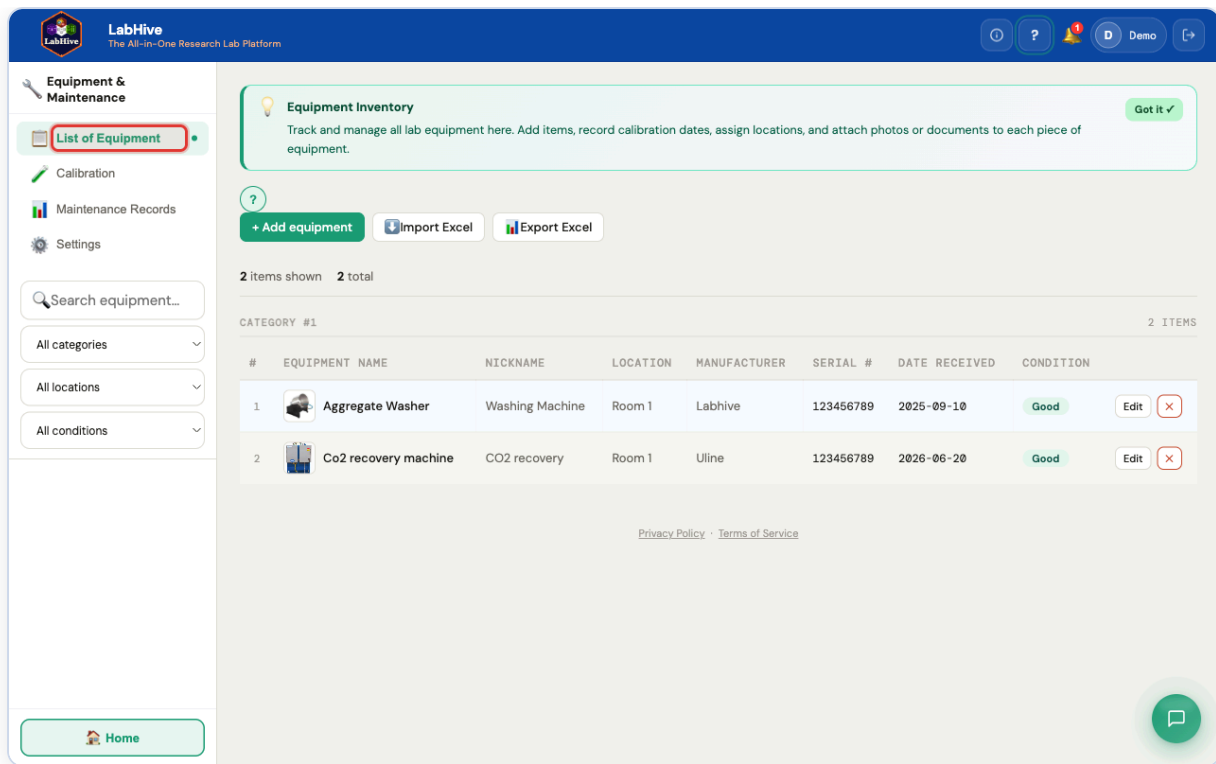

A searchable, sortable table of every piece of equipment in your lab.

Adding New Equipment

- 1 Click **+ Add Equipment**.
- 2 Enter the equipment name, category, serial number, location, and any notes.
- 3 Optionally upload a photo of the equipment.
- 4 Click **Save**. The equipment now appears in the list and in the Booking calendar.

Editing or Marking Out of Service

- Click any row to view the equipment detail, then click **Edit**.
- Set status to **Out of Service** to immediately block all new bookings for that item.
- Change it back to **Active** when servicing is complete.

Screenshot: Equipment & Maintenance → List of Equipment

Maintenance Records Tab

Equipment & Maintenance → Maintenance Records

Log calibrations, repairs, and inspections for any piece of equipment.

Adding a Maintenance Record

- 1 Click **+ Add Record**.
- 2 Select the equipment from the dropdown.
- 3 Choose the record type: Calibration, Repair, Inspection, etc.
- 4 Enter the date, technician name, description, and next-due date.
- 5 Optionally attach a file (service report, calibration certificate).
- 6 Click **Save**.

[Privacy Policy](#) · [Terms of Service](#)

💬

Screenshot: Equipment → Maintenance Records tab

Settings Tab

Equipment & Maintenance → Settings

Add, edit, or remove equipment categories used to organize the inventory list.

SECTION 05

Equipment SOP Hub

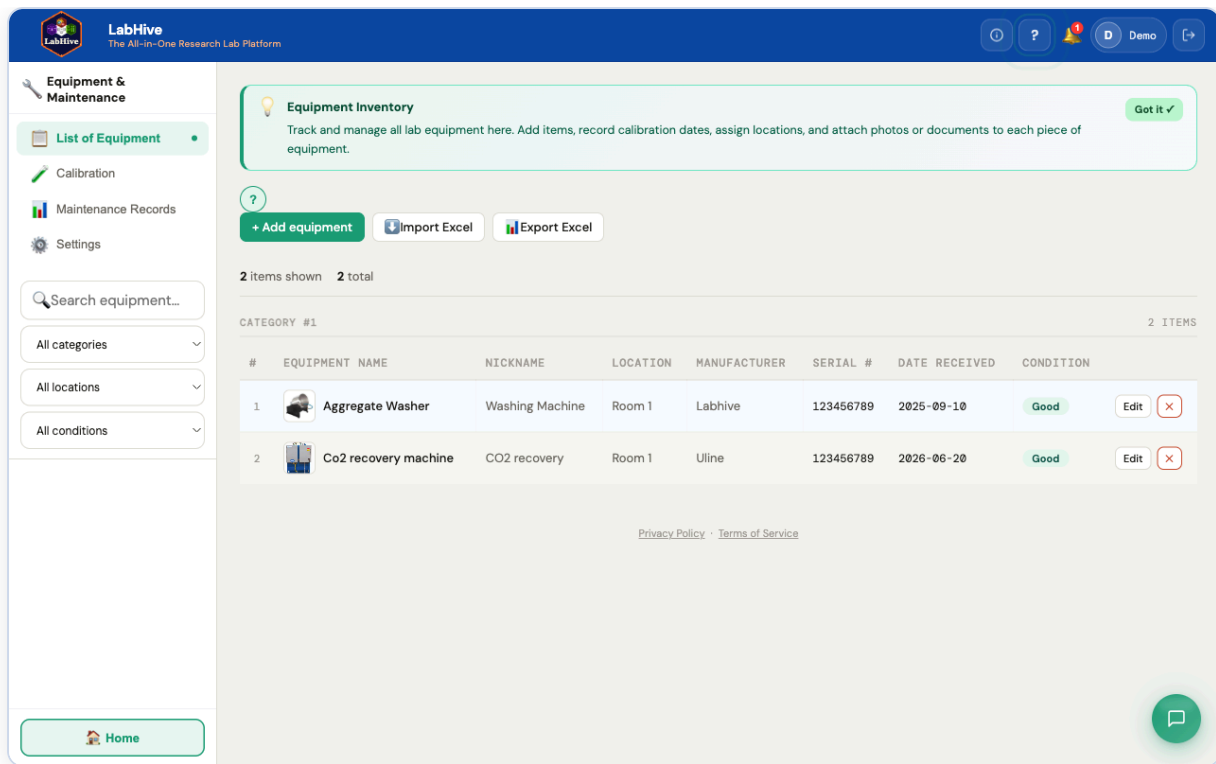

Manage SOPs, training videos, standards, and online exams for each equipment

Dashboard → Equipment SOP

The SOP Hub is where lab users learn to use each piece of equipment. As a lab manager, you populate and maintain the content.

Managing SOP Content for an Equipment

- 1 Select the equipment from the list or search bar.
- 2 Click **Edit** to manage its content.
- 3 Add or update any of the following:
 - 4 **SOP Document** — upload a PDF or link to the operating procedure.
 - 5 **Training Videos** — paste YouTube or Vimeo URLs for how-to demonstrations.
 - 6 **Standards / Specifications** — add technical specs or compliance documents.
 - 7 **Online Exam** — create quiz questions users must pass before booking.
- 8 Click **Save** . Changes appear to lab users immediately.

Screenshot: Equipment SOP Hub — equipment selected and in edit mode

Setting Up an Online Exam

Lab users must pass the equipment exam before they can book that equipment.

- 1 In the equipment edit view, open the **Exam** section.
- 2 Add questions with multiple-choice answers. Mark the correct answer for each.
- 3 Set the **passing score** (e.g. 80%).
- 4 Save. Lab users see a **Take Exam** button when viewing this equipment's SOP page.

Tip: Exam results automatically appear in Training Records → Equipment tab for each user — no manual tracking needed.

QR Scan Experience (Lab User View)

When a lab user scans the QR code on a piece of equipment, they land on a quick-access page with three options:

- **Standard Operating Procedure** — read the SOP and watch training videos
- **Book this Equipment** — jump directly to the booking calendar
- **Calibration** — view calibration schedule and maintenance status

Booking & Equipment Reservation

Manage equipment reservations, approvals, and the booking calendar

Dashboard → Reserve Equipment

Four sub-tabs: **Book Equipment**, **History & Usage**, **Special Treatment**, **Settings**.

Book Equipment Tab — Calendar View

Reserve Equipment → Book Equipment

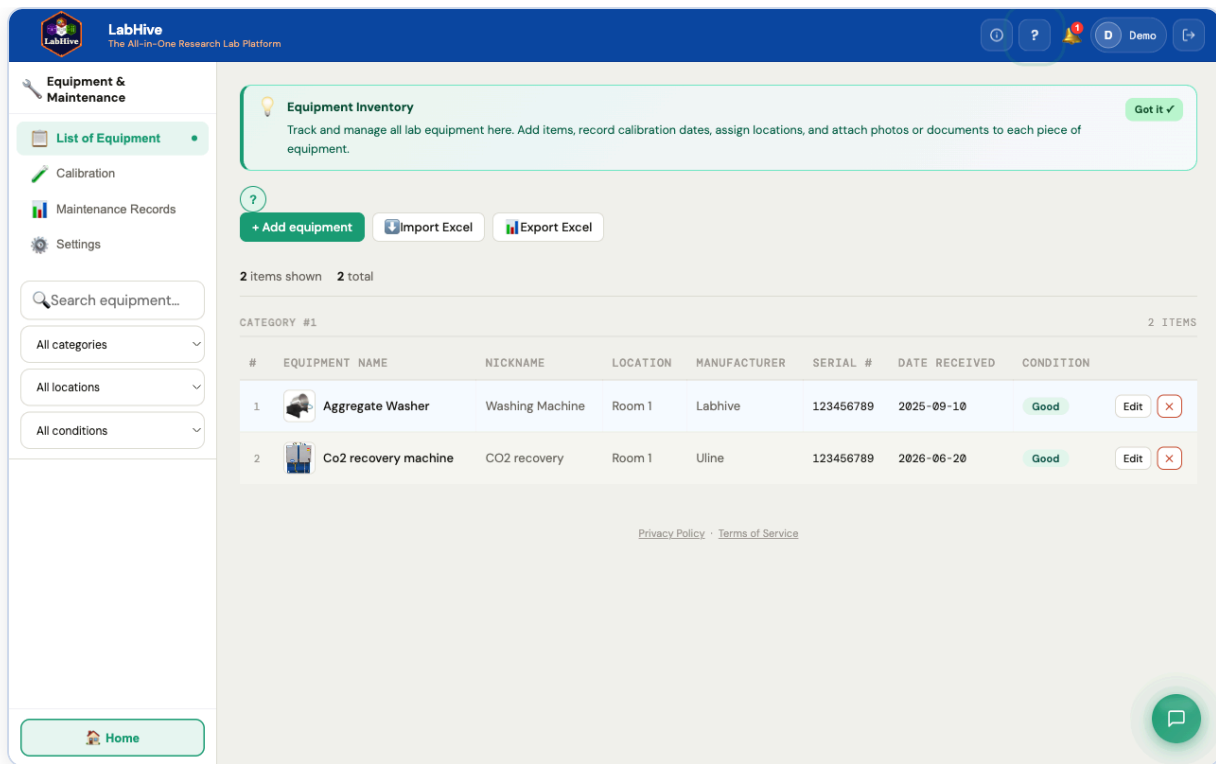

The main booking calendar shows all reservations for the selected equipment. As a lab manager, you see every user's bookings.

Reading the Calendar

- Use the **equipment selector** on the left to choose which equipment to view. Check **Select All** to see all equipment on one calendar.
- Navigate weeks using the ← → arrows.
- **Teal blocks** = approved bookings. **Gray blocks** = pending. **Red blocks** = denied.

Approving or Denying a Booking

- 1 Click a booking block on the calendar.
- 2 The booking detail panel opens — shows who booked it, time, equipment, and notes.
- 3 Click **Approve** to confirm the reservation.
- 4 Or click **Deny** and enter a reason.
- 5 The lab user receives an email and in-app notification with your decision.

Screenshot: Reserve Equipment → Book Equipment tab

Dragging to Reschedule a Booking

As a lab manager you can reschedule any booking by dragging directly on the calendar:

- Drag the **body** of a booking block to move it to a new day or time slot.
- Drag the **top edge** to change the start time.
- Drag the **bottom edge** to change the end time.
- A dashed teal preview shows the new position. Release to confirm — the user is notified automatically.

History & Usage Tab

Reserve Equipment → History & Usage

Complete history of all bookings — past and future — with filters by equipment, user, status, and date range. Export to Excel for reporting.

Special Treatment Tab

Reserve Equipment → Special Treatment

Add a special handling note to any equipment. Lab users see this note and must confirm they have read it before completing a booking.

- 1 Select the equipment from the dropdown.
- 2 Type the special instruction (e.g. "Wear PPE. Do not use solvents near this unit.").
- 3 Click **Save Note** . An orange ⚠ badge appears on that equipment in the booking calendar as a visual reminder.

[Privacy Policy](#) · [Terms of Service](#)

Screenshot: Reserve Equipment → Special Treatment tab

Booking Settings Tab

Reserve Equipment → Settings

Configure booking rules for your organization:

- Whether bookings require manager approval before confirmation.
- Maximum booking duration per session.
- How far in advance users can book.
- Photo requirements before/after equipment use.

SECTION 07

Task Board

Create tasks, schedule meetings, set deadlines, and track team progress

Dashboard → Task Board

Six sub-tabs: **Overview**, **My Tasks**, **Team**, **Calendar**, **Meetings**, **Reminders**.

Overview Tab

A summary showing task counts by status (To Do / In Progress / Done), upcoming deadlines, and team workload at a glance.

My Tasks Tab

Task Board → My Tasks

Creating a Task

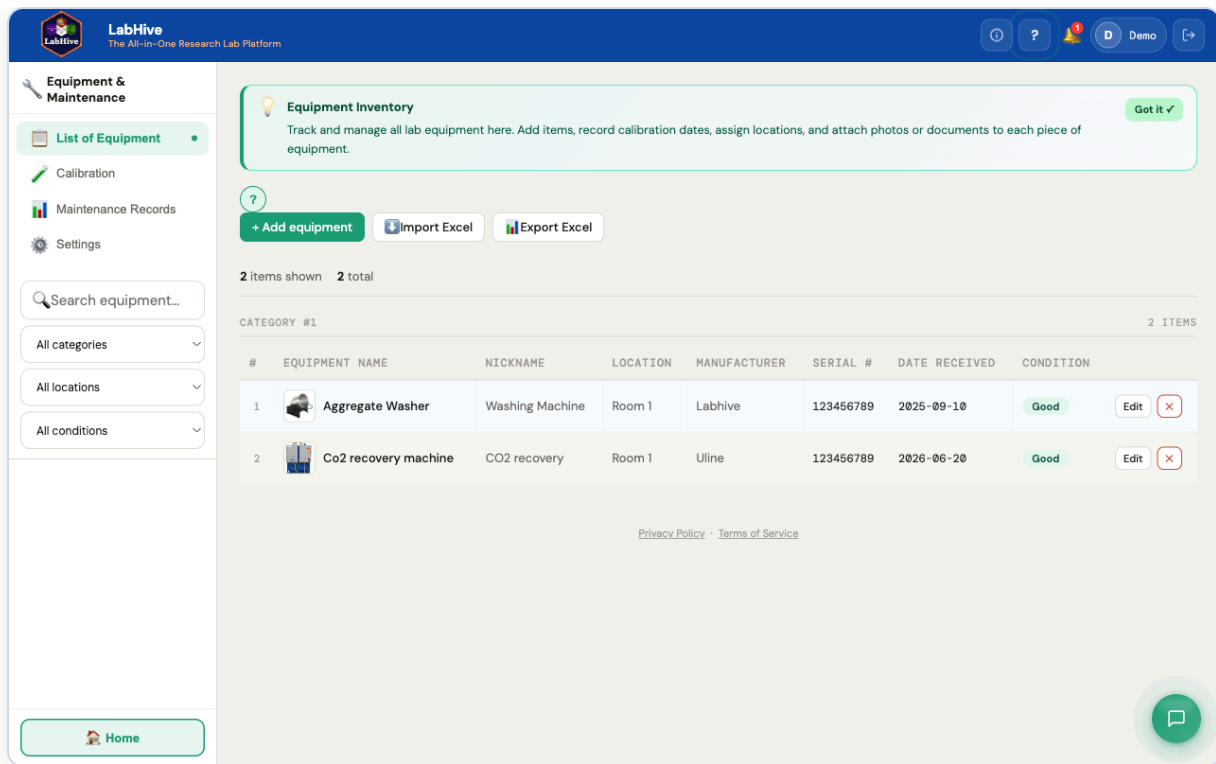

- 1 Click **+ New Task**.
- 2 Enter the title, description, priority (Low / Medium / High), and deadline.
- 3 Optionally set a start date, attach files, or assign to another team member.
- 4 Mark as **Private** if only you should see it.
- 5 Click **Save**.

Updating Task Progress

- Click any task to expand it. Use the **progress slider** (0–100%) to update completion.
- Change status: To Do → In Progress → Done.
- Attach additional files or notes directly to the task.

Out of Lab Days

In the sidebar panel under My Tasks, use the **Out of Lab** section to mark days you will be absent. Red X markers appear on the mini-calendar — visible to all managers to help with planning.

Screenshot: Task Board → My Tasks tab

Team Tab

Task Board → Team

View all tasks across the entire team — who is working on what, their progress percentages, and upcoming deadlines. Assign tasks to specific team members from here.

Calendar Tab

Task Board → Calendar

Full monthly calendar view of all tasks and meetings. Click any day to see what is scheduled. Out-of-lab days show as red X markers (org-wide view for managers).

Reminders Tab

Task Board → Reminders

Set daily summary emails or deadline alerts. Reminder preferences link to your Notification settings in Profile.

SECTION 08

Supply Inventory

Run room inspections, track supply counts, and export reports

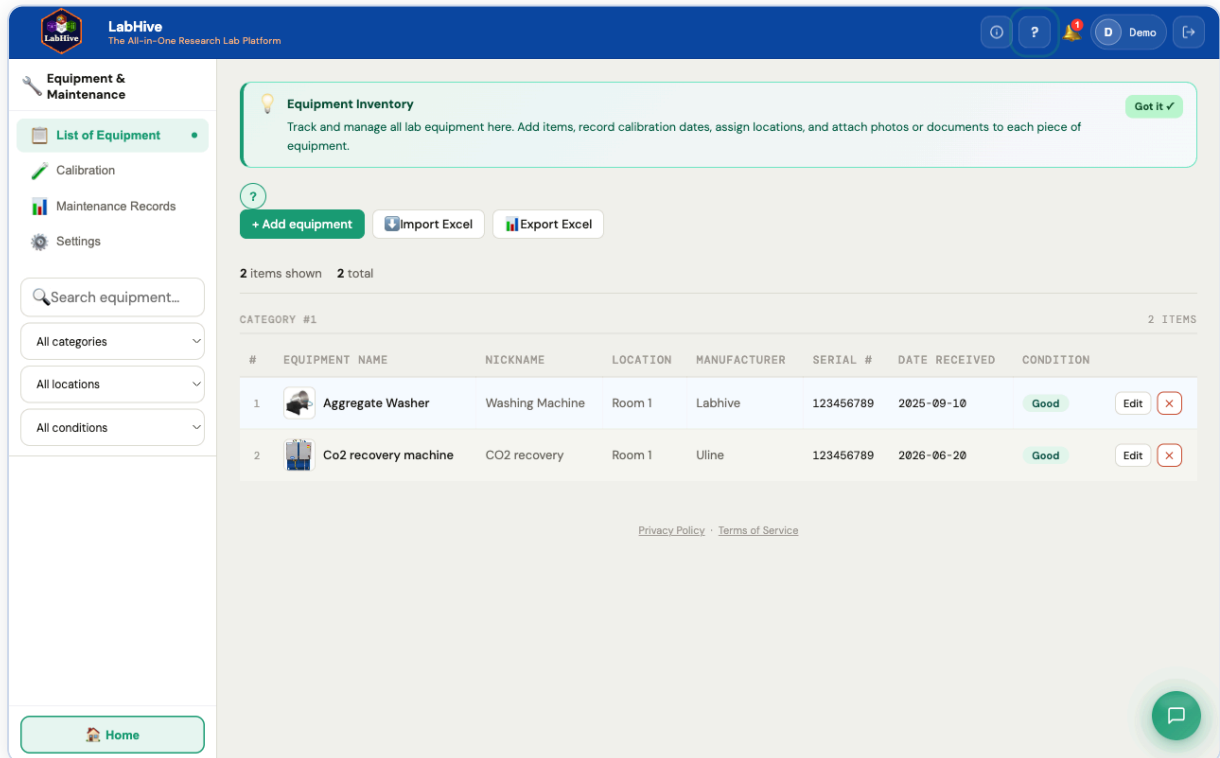

Dashboard → Supply Inventory

Sub-tabs: **Inspection**, **Export Data**, **Rooms**, **Supplies**, **Import**, **Settings**

Running an Inspection

Supply Inventory → Inspection

- 1 Select a **room** to inspect from the room list.
- 2 For each supply item, enter the *last recorded count* appears as a gray placeholder — if you leave the box empty, that value is saved.
- 3 If an item is low, fill in the **"amount needed to order"** field.
- 4 Click **Next Item** or **Next Room** to continue through all items.
- 5 On the results screen, click **Save & Next Room** to continue, or **Save** when done.

The screenshot shows the LabHive 'Equipment Inventory' page. The left sidebar contains navigation links: 'Equipment & Maintenance', 'List of Equipment' (selected), 'Calibration', 'Maintenance Records', and 'Settings'. Below these is a search bar and filters for 'All categories', 'All locations', and 'All conditions'. The main content area has a header with a lightbulb icon and a 'Got it ✓' button. Below the header are buttons for '+ Add equipment', 'Import Excel', and 'Export Excel'. A summary line shows '2 items shown' and '2 total'. A table lists equipment items with columns for #, EQUIPMENT NAME, NICKNAME, LOCATION, MANUFACTURER, SERIAL #, DATE RECEIVED, and CONDITION. Two items are listed: 'Aggregate Washer' and 'Co2 recovery machine'. Each item has 'Edit' and 'X' buttons. At the bottom right, there is a 'Home' button and a chat icon.

#	EQUIPMENT NAME	NICKNAME	LOCATION	MANUFACTURER	SERIAL #	DATE RECEIVED	CONDITION	
1	Aggregate Washer	Washing Machine	Room 1	Labhive	123456789	2025-09-10	Good	Edit X
2	Co2 recovery machine	CO2 recovery	Room 1	Uline	123456789	2026-06-20	Good	Edit X

Screenshot: Supply Inventory → Inspection tab (during an inspection)

Tip: If a count drops below the item's minimum threshold, a pop-up reminds you to enter the amount needed to order before moving on.

Export Data Tab

Supply Inventory → Export Data

View past inspection records. Click **Edit** on any record to correct a count after the fact (low flags are recomputed automatically). Export to Excel or PDF using the export buttons at the top.

Managing Rooms

Supply Inventory → Rooms

Click **+ Add Room** to create a new room. Each room card shows a photo, name, and supply count. Click **Edit** on a card to rename the room or change its photo.

Internal messaging between lab managers, admin, and lab users

[Dashboard](#) → [Lab Messages](#)

Lab Messages is the internal chat system. Communicate with other lab managers, the org admin, and individual lab users — all within the platform without needing email.

Using Lab Messages

Opening or Starting a Conversation

- 1 The left panel lists all active conversations.
- 2 Click an existing conversation to open it.
- 3 Or click **+ New Message** and select the recipient from the user list.
- 4 Type your message and press **Enter** or click **Send**.

The screenshot shows the LabHive 'Equipment Inventory' page. The sidebar on the left contains navigation links: 'Equipment & Maintenance', 'List of Equipment', 'Calibration', 'Maintenance Records', and 'Settings'. Below these is a search bar and filters for 'All categories', 'All locations', and 'All conditions'. The main content area has a header with 'Equipment Inventory' and a description. Below this are buttons for '+ Add equipment', 'Import Excel', and 'Export Excel'. A table shows 2 items. The table has columns: #, EQUIPMENT NAME, NICKNAME, LOCATION, MANUFACTURER, SERIAL #, DATE RECEIVED, and CONDITION. The first item is 'Aggregate Washer' (Washing Machine) in Room 1, manufactured by Labhive, with serial 123456789, received 2025-09-10, in 'Good' condition. The second item is 'Co2 recovery machine' (CO2 recovery) in Room 1, manufactured by Uline, with serial 123456789, received 2026-06-20, in 'Good' condition. Each row has 'Edit' and 'Delete' buttons. At the bottom left is a 'Home' button, and at the bottom right is a chat icon.

#	EQUIPMENT NAME	NICKNAME	LOCATION	MANUFACTURER	SERIAL #	DATE RECEIVED	CONDITION	
1	Aggregate Washer	Washing Machine	Room 1	Labhive	123456789	2025-09-10	Good	Edit X
2	Co2 recovery machine	CO2 recovery	Room 1	Uline	123456789	2026-06-20	Good	Edit X

Screenshot: Lab Messages screen

Tip: New incoming messages also trigger the 🔔 notification bell. Clicking the notification takes you directly to that conversation.

SECTION 10

Project Workspace

View and manage research projects and material inventory

Dashboard → Project Workspace

Lab users create and manage their own research projects. As a lab manager, you can view all projects in your organization.

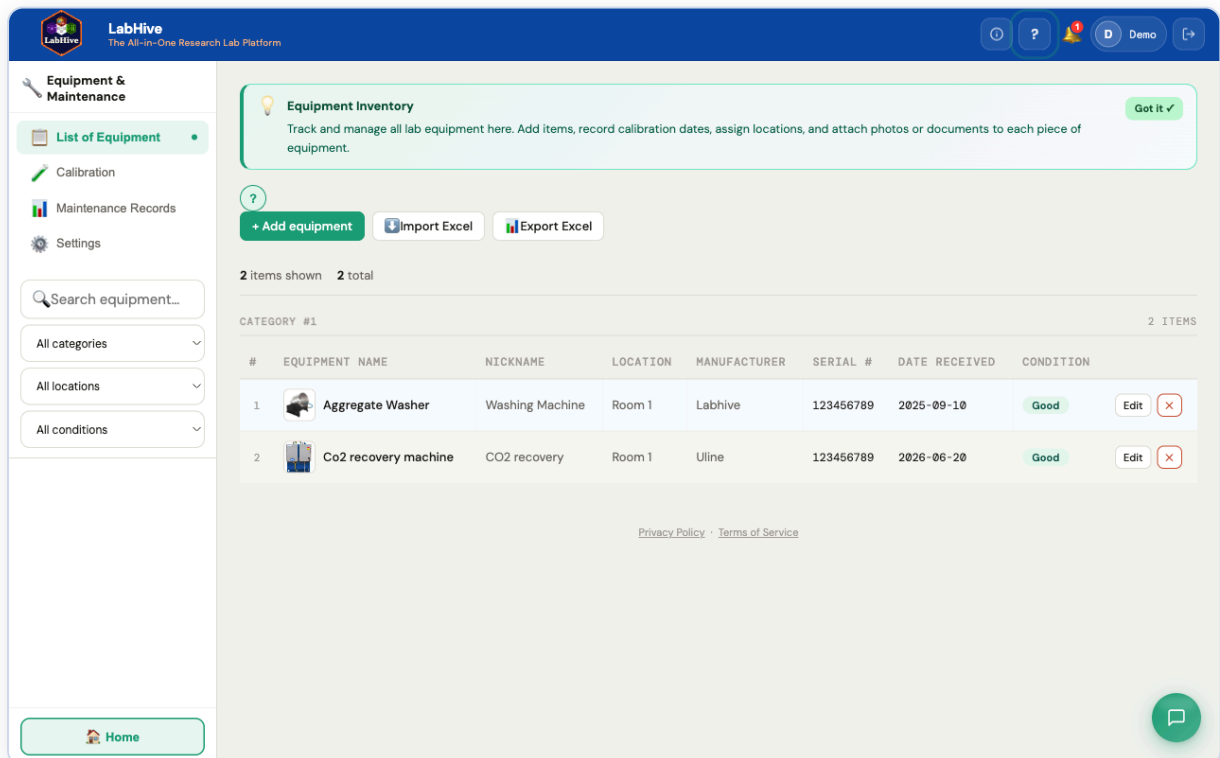

Projects Overview

- The **left sidebar** lists all projects. Click a project to open it.
- Each project shows its associated materials, uploaded files, and test results.
- Lab users create their own projects; managers can see all projects org-wide.

Material Inventory Tab

Project Workspace → Material Inventory

Tracks all materials (chemicals, components, supplies) used across all projects. Search by material name, lot number, or project. Export records to Excel with the  **Export** button.

The screenshot shows the LabHive 'Equipment & Maintenance' section. The left sidebar contains a 'List of Equipment' menu item, which is active. Below it are links for 'Calibration', 'Maintenance Records', and 'Settings'. A search bar is labeled 'Search equipment...'. There are three dropdown menus for 'All categories', 'All locations', and 'All conditions'. At the bottom of the sidebar is a 'Home' button. The main content area has a header 'Equipment Inventory' with a 'Got it' button. Below the header is a description: 'Track and manage all lab equipment here. Add items, record calibration dates, assign locations, and attach photos or documents to each piece of equipment.' There are three buttons: '+ Add equipment', 'Import Excel', and 'Export Excel'. Below these buttons, it says '2 items shown 2 total'. A table lists the equipment items. The table has columns: #, EQUIPMENT NAME, NICKNAME, LOCATION, MANUFACTURER, SERIAL #, DATE RECEIVED, and CONDITION. There are two items listed. The first item is 'Aggregate Washer' with nickname 'Washing Machine', location 'Room 1', manufacturer 'Labhive', serial number '123456789', date received '2025-09-10', and condition 'Good'. The second item is 'Co2 recovery machine' with nickname 'CO2 recovery', location 'Room 1', manufacturer 'Uline', serial number '123456789', date received '2026-06-20', and condition 'Good'. Each item has 'Edit' and 'X' buttons. At the bottom of the main content area, there are links for 'Privacy Policy' and 'Terms of Service'. A green chat bubble icon is in the bottom right corner.

#	EQUIPMENT NAME	NICKNAME	LOCATION	MANUFACTURER	SERIAL #	DATE RECEIVED	CONDITION
1	Aggregate Washer	Washing Machine	Room 1	Labhive	123456789	2025-09-10	Good
2	Co2 recovery machine	CO2 recovery	Room 1	Uline	123456789	2026-06-20	Good

Screenshot: Project Workspace → Material Inventory

SECTION 11

QR Labels & Barcodes

Generate and print QR codes for lab equipment and materials

Dashboard → QR Labels

Three tabs: **Equipment Barcode**, **Records**, **Project Materials**

Equipment Barcode Tab

QR Labels → Equipment Barcode

Generate a printable QR label for any piece of equipment. When a lab user scans it, they are taken directly to that equipment's SOP Hub page (Section 5).

- 1 Select the equipment from the dropdown or search.
- 2 A QR code preview is generated automatically on screen.
- 3 Click **Print Label** to print a physical sticker.
- 4 Attach the printed label to the equipment in the lab.

Home

Screenshot: QR Labels → Equipment Barcode tab

Tip: QR labels print in black & white — they work on any standard laser or inkjet printer without special label paper.

Records Tab

History of all generated QR labels with date and the user who generated them. Useful for auditing which equipment has a current label attached.

Project Materials Tab

Generate QR or barcode labels for project materials. Scanning these links back to the material's inventory record in the Project Workspace.

SECTION 12

Profile & Account Settings

Personal info, dashboard customization, notification preferences, and storage

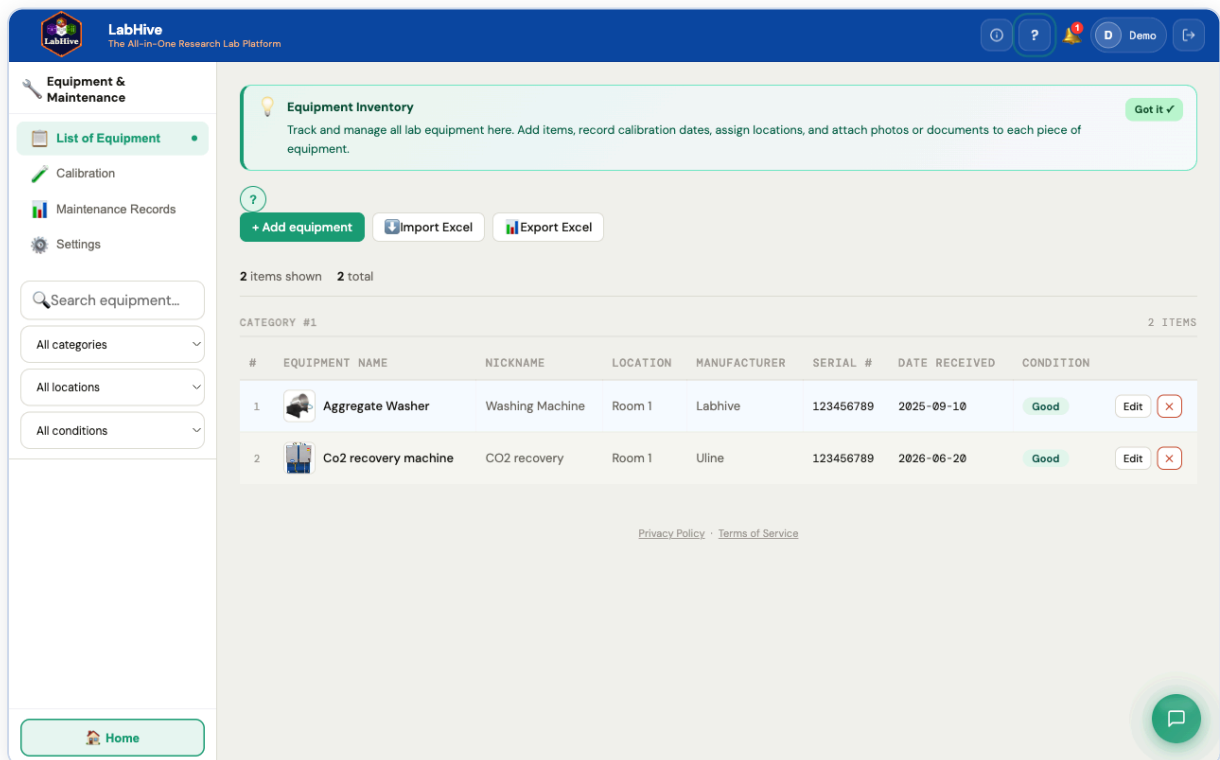

Dashboard → Profile (or click your avatar in the header)

My Info Tab

- Update your first name, last name, and nickname (display name).
- Upload a **profile photo** — appears in the header, Training Records cards, and Lab Messages.

Password Tab

Change your account password. Enter your current password, then your new password (minimum 6 characters). You must be logged in to change your password.

The screenshot shows the LabHive interface. The top navigation bar includes the LabHive logo, the text 'The All-in-One Research Lab Platform', and user controls like a clock, help icon, notification bell, a 'D' button, a 'Demo' button, and a share icon. The left sidebar is titled 'Equipment & Maintenance' and contains links for 'List of Equipment' (active), 'Calibration', 'Maintenance Records', and 'Settings'. Below these is a search bar and three filter dropdowns: 'All categories', 'All locations', and 'All conditions'. At the bottom of the sidebar is a 'Home' button. The main content area is titled 'Equipment Inventory' with a 'Got it ✓' button. It includes a description: 'Track and manage all lab equipment here. Add items, record calibration dates, assign locations, and attach photos or documents to each piece of equipment.' Below this are buttons for '+ Add equipment', 'Import Excel', and 'Export Excel'. A status bar shows '2 items shown' and '2 total'. A table titled 'CATEGORY #1' displays two items. The table has columns for #, EQUIPMENT NAME, NICKNAME, LOCATION, MANUFACTURER, SERIAL #, DATE RECEIVED, and CONDITION. Each item row also includes 'Edit' and 'Delete' (X) buttons. At the bottom of the main area are links for 'Privacy Policy' and 'Terms of Service'. A floating chat bubble is in the bottom right corner.

Storage Tab

Your personal file uploads (training certificates, project files) are stored in **Supabase Cloud** by default. You can optionally connect a personal cloud provider:

- Google Drive
- Microsoft OneDrive
- WebDAV server (personal computer or NAS)

Note: Changing your storage provider only affects future uploads. Existing files remain in their original location.

Project Team Tab

Manage your team membership for shared project workspaces.

QUICK REFERENCE

★ Common Tasks — At a Glance

The most common daily actions for lab managers

A lab user submits a training certificate

- Notification bell turns red with new item
- Go to Training Records → click the user's card → Lab User Documents tab
- Click Approve to confirm, or message the user via Lab Messages if there is an issue

A booking request comes in

- Notification bell shows new booking request
- Go to Reserve Equipment → Book Equipment → click the gray (pending) booking block
- Review the request and click Approve or Deny with a reason
- The lab user receives an email confirmation immediately

Adding a new lab user

- Go to Lab Management → Lab Users → + Add Lab User
- Fill in name, email, and a temporary password
- User logs in and is prompted to change their password
- Direct them to complete Lab Safety training first — it is mandatory

Equipment needs maintenance

- Go to Equipment & Maintenance → List of Equipment → edit the equipment
- Set status to "Out of Service" to block new bookings immediately
- Go to Maintenance Records → + Add Record to log the service event
- Set status back to "Active" when the equipment is ready for use again

Where to Go — Quick Lookup

Task	Module	Sub-tab / Action
Approve a training certificate	Training Records → user card	Lab User Documents → Approve
Add a lab user	Lab Management	Lab Users → + Add Lab User
Approve a booking	Reserve Equipment	Book Equipment → click block → Approve
Deny a booking	Reserve Equipment	Book Equipment → click block → Deny
Mark equipment out of service	Equipment & Maintenance	List of Equipment → Edit → Out of Service
Log a maintenance event	Equipment & Maintenance	Maintenance Records → + Add Record
Run a supply inspection	Supply Inventory	Inspection → select room → count items
Create a task for someone	Task Board	Team → + New Task → set Assigned To
Schedule a team meeting	Task Board	Meetings →  Schedule
Print an equipment QR label	QR Labels	Equipment Barcode → select → Print
Add a special handling note	Reserve Equipment	Special Treatment → select → Save Note
Message a lab user	Lab Messages	+ New Message → select user → Send
Update your profile photo	Profile	My Info → upload photo
Customize dashboard icons	Profile	Dashboard Icons → toggle/reorder
